

EVERYTHING OFFICE, LOWESTOFT

Architect
ASD Architecture Ltd

Client	Everything Office
Main contractor	Wellington Construction Ltd
Axtershield installer	Cambridge Asphalt Ltd
Type of sevelopment	Office
The concept	<p>Site conditions dictated that the unit should be incorporated into the landscaped area to the west of the Site. This was achieved by the application of a 'sedum roof' construction which slopes to the west to camouflage this building from view. Additionally water is collected from the roof for use in the toilets and the green element provides preliminary filtering of solid particles and air borne pollutants prior to its use.</p> <p>This new building was designed fully with the environment in mind and has since won a number of awards.</p>
Roofing	Warm roof incorporating a cap sheet with an anti-root additive and the HYDROPACK pre-planted extensive green roof tray.
Size of roof	250 m ²
Axter materials	HYRANGER TS CPV vapour control layer, HYTHERM ADH thermal insulation, HYRANGER SPOT ADH self adhesive base layer, ALPAFLORE PY AR cap sheet, HYDROPACK 'green roof in a tray'.
